GitHub: https://github.com/HAONANTAO Portfolio: https://www.aarontao.com/

Summary

Highly skilled software developer with a solid foundation in frontend and backend development. Proficient in building web application using HTML5, CSS3, JavaScript, Typescript, React, Node.js.

Demonstrated expertise in working within an agile development environment and delivering projects on time.

Permanent resident with full work right in Australia

Skills

Frontend:

HTML, CSS, **JavaScript**, **Typescript** jQuery, Bootstrap, **React**, NextJs Tailwind CSS, Zustand

Backend:

ExpressJs, NodeJS

Database:

MongoDB, MySQL Version Control:

Git, GitHub

Project Management:

Waterfall, Agile

Work Experience

Altona Gators Basketball Club Website https://github.com/HAONANTAO/SoftWareProject

Frontend developer

Description: Admin web page for Altona Basketball training plan (Graduated Project)

Technologies: JavaScript, Node (MERN stack)

- implemented web application using **TypeScript** and **React**
- Collaborated closely with the designers and translate wireframes to responsive web pages
- Collaborated closely with design and backend development teams to ensure seamless integration of front-end and back-end functionalities.
- Attended agile planning and standup meetings to ensure team alignment, progress tracking

Issue Tracker

Full Stack Web Developer

https://github.com/HAONANTAO/IssueTracker

Description: Self build an issue tracker to tracking the issue within the project development.

Technologies: NextJs, TailWindCss,MySql,Prisma

- implemented web application using Typescript, React and Tailwind CSS
- Worked to integrate **Prisma** with **MySQL** for streamlined database operations.
- Integrated next-auth for Google account authentication, bolstering application security.
- Implemented hook-form to optimize form interaction performance.

Game Hub

Full Stack Web Developer

https://game-ctpe8vfzh-haonantaos-projects.vercel.app/

Description: Created a video game discovery web app to assist users in finding new and interesting games to play.

Technologies: React, Typescript

- Utilized Zod for input validation, ensuring robustness and uniformity of user-provided data
- Implemented frontend with **React** and **TypeScript**, prioritizing type safety and fostering component reusability.
- Designed reusable components to streamline development processes.
- Developed custom self-hooks to encapsulate complex logic and promote code reusability.
- Use Axios to fetch the data from external RAWG API

Certificates

AWS Cloud Practitioner

ITIL

PMP

Education

2022.3-2023.12	University of Melbourne	Master of Information Technology
2019.3-2021.12	Monash University	Bachelor of Computer Science
