Education

(2021-2023)

Master of Information Technology

from University of Melbourne

(2019-2021)

Bachelor of Computer Science

from Monash

Profile Summary

- Full Stack Developer with experience in React, TypeScript, Node.js, MongoDB, and React Native.
- 1+ year of hands-on development building responsive and scalable web & mobile applications.
- Completed 5+ full-stack projects, including live-deployed products with modern UI/UX design.
- Fast learner with a proactive mindset, Agile experience, and certifications including AWS Cloud Practitioner and PMP®
- Australian Permanent Resident with full work rights.
- Eager to contribute to innovative teams and grow in Australia's tech industry.

Work Experiences

FreeLance Developer

03/2024– Present

Key responsibilities

- Developed end-to-end MERN stack and React Native applications, deploying scalable solutions with real-time features to Vercel and the iOS App Store.
- Crafted responsive web and mobile interfaces with React.js, React Native, Tailwind CSS, and NativeWind, ensuring seamless UI/UX across devices.
- Optimized MongoDB and Appwrite database schemas for real-time data access, supporting scalable features like expense tracking and product catalogs.
- Authored detailed API and mobile app documentation, streamlining developer onboarding and user knowledge transfer.
- Implemented automated CI/CD pipelines with GitHub Actions, enabling continuous deployments to Vercel, Heroku, and the iOS App Store.
- Conducted API and mobile UI testing with Postman, ensuring robust payment transactions and cross-platform compatibility with minimal defects.

Certifications

- AWS Cloud Practitioner (2023)
- ITIL® Foundation (2022)
- Project Management Professional (PMP®) (2021)
- Microsoft Office Specialist Master (2019)

Key skills

- **Frontend:** React, React Native, Next.js, TypeScript, Tailwind CSS, Redux
- **Backend:** Node.js, Express, MongoDB, Appwrite, REST APIs,AWS
- **DevOps & Tools:** Git, Docker, Vercel, GitHub Actions
- **Design & Testing:** Figma, Postman, ApiPost
- **Soft Skills:** Agile Methodology, Cross-Functional Collaboration, Bilingual (EN/CN)

Achievements

- [Money Recorder](#) (Feb 2025 – Present)
Developed a React Native mobile app with Appwrite backend, enabling real-time expense tracking, budgeting, and savings goal management.
Delivered an intuitive interface with interactive charts, optimizing personal finance insights for iOS and Android users.
- [E-Commerce Rabbit](#) (Jan 2025 – Present)
Built a full-stack e-commerce platform using React, Express, and MongoDB, integrating PayPal for secure payments and Cloudinary for image management.
Delivered a responsive storefront with real-time cart updates and an admin dashboard, enhancing user experience and operational efficiency.

IT Developer at TongKuo Company 07/2024 – 12/2024

- Built and maintained the company website using React, JavaScript, HTML, and CSS, integrating RESTful APIs to enable dynamic features like real-time data updates, optimizing frontend rendering for a seamless user experience.
- Collaborated with cross-functional teams in an Agile environment, building responsive React components with Tailwind CSS and testing APIs with Postman to deliver user stories across multiple sprints, streamlining user navigation and interaction.
- Developed feature specifications and API endpoint documentation, clarifying technical requirements and accelerating collaboration between development and design teams.
- Bridged communication between developers, designers, and stakeholders, resolving UI/UX conflicts to standardize design elements, ensuring timely delivery of cohesive website features.
